Conclusions

Conclusions

- The majority of customers pay in cash.
- Most products sold and bought fall under the food category.
- Beverage sales vary depending on location, but carbonated drinks are the second most popular product despite making up 11% of products sold.
- Gutten Plans and the EB Public Library make the highest amount of money.
- Sales seem to increase as the months go by and weather gets warmer.
- The majority of all vending machines sales occur during the weekdays, with the exception being the Brunswick Square Mall.
